Meet The Founder

Shubham Satkar

Son of Farmer, Husband to a Ambitious Dentist.
Ex. Chief Minister Fellow turned Speaker turned Entrepreneur & founder
Prolifique Media Pvt. Ltd.

I help empower individuals and businesses to tell their stories in
a way that drives impact.

My journey has been anything but conventional, and each chapter has shaped who I am today. I grew up on the fields, learning the values of hard work, resilience, and the importance of community. From these roots, I moved on to shaping larger communities and policies first as a Chief Minister Fellow, then as a speaker, where I experienced the power of governance, collaboration, and visionary leadership. But somewhere along the way, I realized my true passion: innovation through media. And that's how Prolifique Media was born.

Prolifique Media isn't just a company; it's a vision. We are dedicated to helping brands amplify their voice in a crowded digital world, creating stories that not only resonate but drive real results. From digital marketing to content creation and branding strategy, we leverage the power of storytelling to help businesses grow and connect with their audience.

What excites us most is the endless possibility for creativity and impact. Whether you're a startup or an established brand, my goal is to help you unlock your potential and build meaningful connections through the power of media.

Our Vision

To be the most trusted agency

for **FMCG brand growth** and **Public figure promotion**,

creating legacies that inspire trust loyalty and recognition.

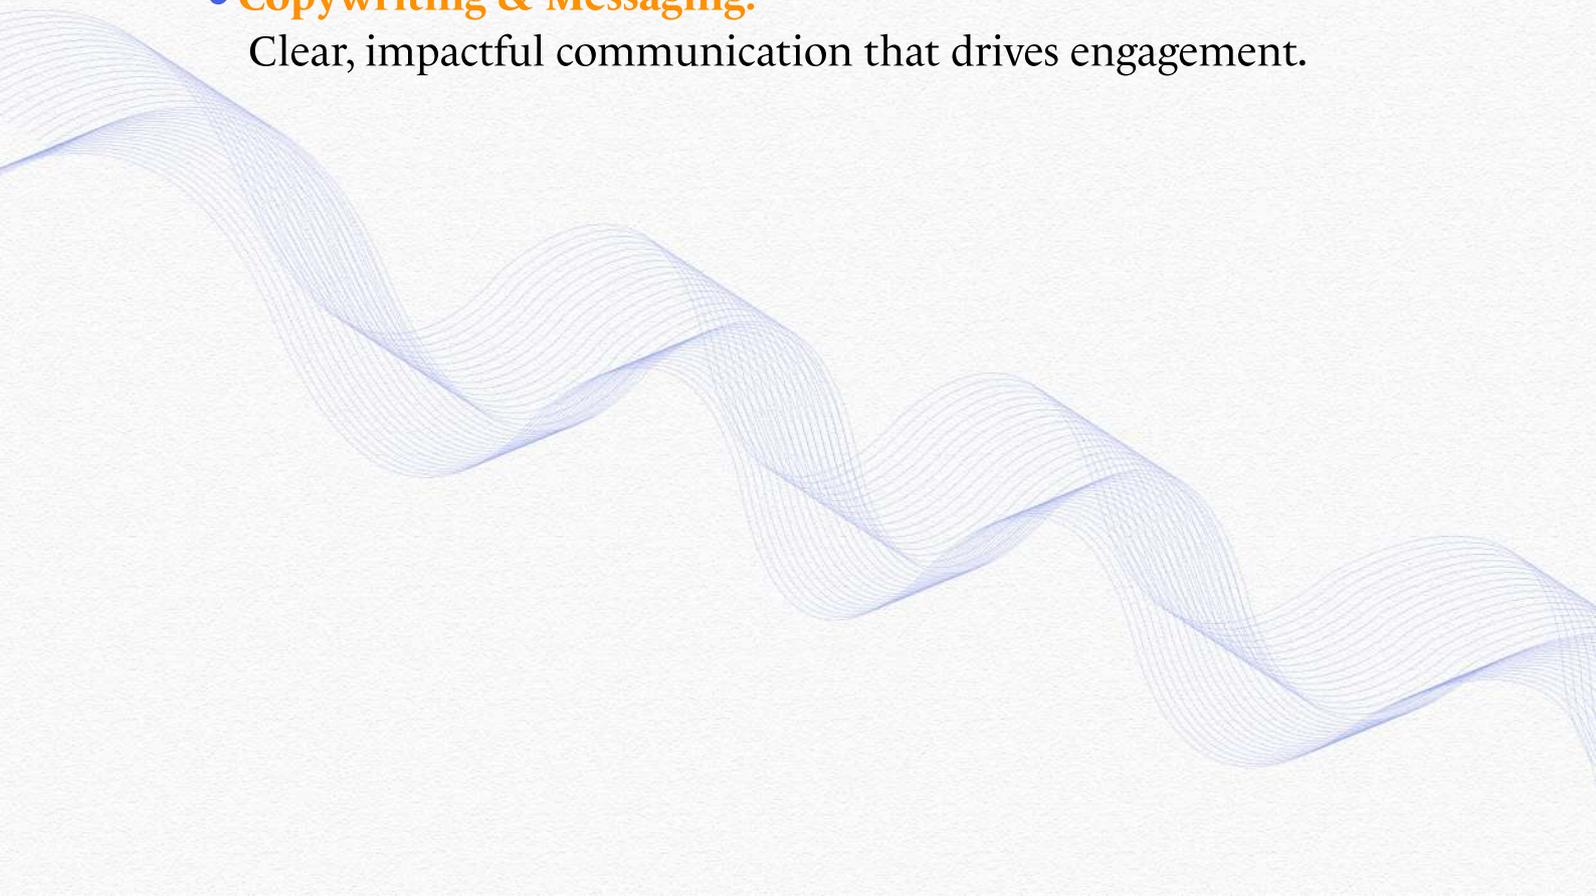

In a world where consumers swipe faster than they think, emotion is the only thing that makes them pause. That's why we built Prolifique Media FMCG an agency born to bring stories into everyday products. From the scent of a soap to the taste of a biscuit, every product has a story to tell of care, comfort or celebration. We work with FMCG brands that want to go beyond packaging and promotion brands that want to be remembered.

Because in today's market, people don't buy products.
They buy stories that feel like theirs.
